

The Saks Stores

Leaders since 1867.

A Demonstration In Saks-Clothing Superiority.

We offer tomorrow choice of a line of Men's Suits that are \$12.50 and \$13.50 values—our price for which is but ————— **\$10.00**

Also two lots of Top Coats that deserve a five-dollar better marking—but we can, so we shall, sell them at ————— **\$15.00**

These are specials—that is, they are unusual values made possible by the greater facilities our own work rooms afford. They are better made Suits and Top Coats than are to be found ready-to-wear elsewhere. They are marked materially below competitive values, because the "middle-man's profit" is eliminated here.

It is so easy to talk of big stocks and big values and big achievements—but harder by far to demonstrate successful leadership. The mole-hill would be a mountain if there was nothing higher. Other makes of clothing would be best and cheapest if ours was not so vastly better and our prices so materially less—and for valid reasons.

The Suits are Plain Blacks, Fancy Mixtures, Checks, Stripes—a big variety of new and exclusive novelty designs. They are cut in the latest styles of Single Breasted Suits—both the extremes and the conservatives. All sizes.

One of the Top Coat lots is a broad plaid and the other a half-line stripe—both overlying a herringbone weave. They are the latest "box" effect—short and "full around"—with serial silk attached on skirt, collar, cuffs and pocket flaps. All sizes.

Our Famous Saturday Sales of Boys' Clothing Have Begun Again.

Mothers say four things about our Boys' Clothing stock—

- that they see the greatest assortment.
- that the styles are all exclusive.
- that they find greater satisfaction.
- that they are required to pay less.

The "best-cheapest" policy is carried into the juvenile supplies, you see. The "Saturday Sales" have earned popularity with parents. We intend this season's—beginning with tomorrow—shall surpass the record we've made. We never guaranteed with such confidence as we can these leaders. You've bought no such values at half again as much. You'll get no such service out of Boys' Suits as these will give—and that's the test of worth you know.

All the boys—big and little—are provided for—

SAKS AND COMPANY,

Pennsylvania Avenue and Seventh Street.

UNDER GRAVE CHARGES.

Two Men Alleged to Have Conspired to Defraud.

George McGinnes, colored, who gave his calling as that of a minister and his age as forty-seven years, was arrested this afternoon by Detective Browne and taken to the police headquarters. His arrest was made on a warrant alleging that he conspired with Louis W. Pules, also colored, to defraud the Capital Traction Company out of \$300. Pules, the alleged co-conspirator, was arrested late this afternoon.

When taken to headquarters, the colored divine said he lived in Alexandria, but that he was pastor of Mount Zion Baptist Church in Montgomery county, Maryland, and had recently received a call from the Union Baptist Church of this city. He expected, he said, to soon become pastor of the church.

The warrant for his arrest was issued from the Police Court two days ago on the oath of Mr. C. G. Dunlop, assistant counsel for the Capital Traction Company, and was placed in the hands of Detective Browne and Lacy for service. The former detective met McGinnes on the street this afternoon and placed him under arrest. It is alleged in the warrant that the minister and Attorney Pules conspired to defraud the Capital Traction Company by the use of a suit being filed in the case of the Mount Zion Baptist Church, colored, on G street, several months ago. The warrant also alleges that McGinnes agreed to give testimony to show that the victim of the accident was in a stopping position when the car struck him, and that the company was not to blame; or that he would give such testimony as might be desired, or would absent himself from the jurisdiction of the court and refuse to give any testimony.

It is also alleged in the warrant that this action was to be taken in consideration of the sum of \$300 to be paid to the parties mentioned.

Detectives Browne and Lacy arrested Pules while the latter was on his way to his home late this afternoon. The two defendants, it is alleged, called on McGinnes at his office Monday and the conversation between them and the attorney was put in writing. This written statement, it is alleged, contains the charges charged to have been made by the defendants. It is further alleged that they attached their signatures to the writing, and that Detective Browne was in a position at the time to witness the transaction. The case may be heard in the Police Court tomorrow.

THE RODNEY CASE.

Draft for Amount of Alimony Delivered to Mrs. Rodney's Counsel.

Attorney Selhausen, of counsel for Mrs. Margaret Edith Rodney, who is suing Lieutenant Commander Robert Burton Rodney for divorce, this afternoon informed Chief Justice Bingham that Attorney Dewees, representing the defendant, was in possession of a draft for alimony due Mrs. Rodney. The retired naval officer was cited to show cause why he should not be adjudged guilty of contempt for failing to pay the alimony which was due the 16th instant. Attorney Selhausen explained that Lieutenant Commander Rodney had instructed his counsel not to pay the alimony unless the court should direct that the defendant be committed. Complaint regarding this procedure was entered by Attorney Selhausen, who declared that Lieutenant Commander Rodney is using the court as a plaything.

Chief Justice Bingham directed that the draft be turned over to counsel for Mrs. Rodney, which was done. The court suggested to Attorney Dewees that it might be well to notify Lieutenant Commander Rodney that hereafter the best course for him to pursue will be to pay promptly the amounts of alimony as they fall due.

FARMING IN THE FAR WEST.

Report on Agricultural Conditions on the Pacific Coast.

The Department of Agriculture has issued a report on the general agricultural conditions in the Pacific coast region. It says that although the tendency for the past twenty-five years has been toward a gradual reduction in the area of individual farms and ranches they are still of a size much larger than the average farm of the east or even of the middle west. This is particularly true in California. Another distinctive feature, especially in the great valley areas of California, is the use of machinery of great capacity, which means an economy of human labor, but often also means a waste of grain. Every effort is made to combine several operations into one. Transportation of the enormous quantity of Pacific coast wheat has been reduced to a science. A large saving is effected by loading ships directly from the cars, trains being run from the wheat fields to tidewater at a very few hours' notice. In Washington and Oregon, however, the wheat is run through an elevator, where it is re-cleaned and mixed with other grades of wheat before it is loaded. The wheat is resacked and loaded on the vessels or cars for final shipment. About 27,450,000 bushels of wheat are exported from the Pacific coast ports during the past ten years; nearly one-half is cleared at San Francisco. The report says it has taken about 30,000,000 bushels of wheat to supply the foreign markets with Pacific coast wheat and flour. Of this amount California furnishes more than 20,000,000 bushels. Another bulletin on irrigation in California, based on investigations of experts and special agents, urges that the state should retain the volume of available irrigation water, define all rights to its use, whether already acquired or to be acquired hereafter, and provide an efficient system of water distribution. It also urges the limitation of all appropriation to actual beneficial use and attachment of all rights to water to the land irrigated.

Women's Missionary Meeting.

The fourth quarterly meeting of the Washington District Association of the Women's Foreign Missionary Society of the Methodist Church met today at Foundry M. E. Church. The attendance at the meeting was very gratifying to those interested in the work of the society, upwards of seventy-five ladies being present. Mrs. Frank M. Bristol, the president of the association, gave a Bible reading. Mrs. H. H. Harrison, corresponding secretary, made a brief report on the general interests of the work of the association. A report for the fourth quarter was rendered by the treasurer, S. R. La Feta, which showed that the sum of \$2,100.00 had been received. A large portion of the reported amount amounted to \$885. There are, however, many returns to be yet made. A large portion of the time of the association was taken up in considering details for the coming annual meeting of the association, to be held next Tuesday.

Blaze in Grocery Store.

The fire department was summoned to Terrance McLaughlin's grocery store, No. 1523 11th street northwest, about 1:30 o'clock this afternoon for a blaze between the joists near the chimney caused by an overheated chimney. The store is in a frame structure, and the building was only saved from destruction by the thorough work of the firemen. Not more than \$50 damage was done to the building and stock.

The Marshal for Hawaii Dead.

A telegram received here announces the death from heart failure of Daniel A. Ray, United States marshal for Hawaii, at Honolulu on the 16th instant. Mr. Ray was well known here as a prominent citizen and member of the state central committee, formerly editor of an Illinois newspaper and for many years had been secretary to Senator Charles McNamara. He was sixty-five years old.

Mr. Cortelyou Goes to Canton.

Mr. George B. Cortelyou, secretary of the President, left last night for Canton. He will settle the estate and adjust the personal affairs of the late President McKinley.

Bond Purchases.

The Treasury Department yesterday purchased a total of \$25,710 in bonds, divided as follows: Threes of 1908, \$18,000; 4s of 1907, \$375,000; 4s of 1905, \$33,000. The last were bought at 107 and the other lots at the rate of 123.

DISMISSED FROM THE SERVICE.

Department's Action Regarding Pay.

The Navy Department has dismissed Pay Clerk Henry D. Lazelle from the naval service. Lazelle was recently tried by court-martial on a charge of "scandalous conduct tending to the destruction of good morals," the specifications alleging that he had endeavored, by letter, to enter into fraudulent operations with one T. M. Lafin of Yokohama, Japan, in connection with bids for supplying certain provisions for the U. S. S. Oregon. The testimony adduced did not substantiate the charge, in the opinion of the court. While testimony tending to show that Lazelle had written a letter to the end stated above was produced, the court found that the communication to be delivered to Mr. Lafin could be had, and the court acquitted him of the charge.

VETERANS TURNED OUT OF HOME.

They Expressed Pleasure Over Murder of President. MARION, Ind., September 27.—Jerry Kuder, Peter Locke, James Spears, three veterans of the Soldiers' Home here, who have been in the guardhouse of that institution since the night of the shooting of President McKinley for having expressed pleasure over the work of Czolgosz, and hoped that the President would die, have been sentenced by the board of managers of the home to be publicly degraded and dishonorably discharged from that institution tomorrow.

ANARCHIST EDITOR ARRESTED.

He Had Gloated Over the Murder of the President. SPRING VALLEY, Ill., September 27.—John Clancibilla, the proprietor of La Aurora, the anarchist paper published here, which gloated over the assassination of President McKinley, was arrested here today by United States Marshal St. Clair of St. Louis. Post Office Inspector B. F. Gilbert was here a few days and worked up the case. He then returned to Chicago and swore out a warrant for the arrest of Clancibilla. The latter will be arraigned before United States Commissioner H. H. Dicus this afternoon on a charge of violating the postal laws by publishing seditious notices. There is said to be no law under which he can be prosecuted for the anarchistic language used in his paper, but the authorities state that the other charge will be pressed vigorously.

Divorce for Mrs. G. M. Pullman, Jr.

CHICAGO, September 27.—Judge Bishop today granted a decree of divorce to Mrs. Lynn Pullman from George M. Pullman, son of the late palace car magnate. Alimony was fixed at \$1,000 a year, and the plaintiff granted permission to apply for an increase in the alimony and for attorney's fees.

DIETRICH ON PHILIPPINES.

The Senator From Nebraska Tells of Prospects of the Islands.

From the Honolulu Advertiser, September 18.

C. H. Dietrich, junior senator and former governor of Nebraska, is one of the passengers in the Nippon Maru. He is accompanied by his daughter and has just come from a visit to the Philippines. Senator Dietrich was one of the party which went out with Adjutant General Corbin and went all over the group of islands during their stay. Speaking of the work being done in the Philippines, Senator Dietrich said last evening:

"The future of the islands is safe in the hands of the men who are in authority there, and I believe that the country will have a great thing for the United States. Of course all depends upon the government, but where the civil authority has been inaugurated by Judge Taft it is working well and the people seem to be contented, and I believe will be properly maintained. Wherever we went we saw the people plowing up lands which had been without cultivation for three years during the war, and this land will be put into rice and hemp at once, and the result will be that the old-time trade of the country will be restored."

"The country is rich beyond question, and the need is that Americans go in and develop it. This will be done without doubt and the people will find that there is great wealth waiting to be exploited. There is no reason why an American cannot live in that country, and the trade which will come from our occupation of the archipelago will be sufficient to attract any number of American businessmen in the near future. At the present time there is a decided growth in the trade of the islands, and the Americans are getting their share of it. Of course there is still much of the country that is under the military rule, and the fighting is not over, but the people of the islands, but this will not last long, as the outlook is for peace very soon."

"The hope of the country lies in an honest administration of the government, and this we believe will follow the course of the administration as at present being inaugurated by the Taft commission. There may be a chance that in the rush for places on the islands will result in a cessation of office holders. But this will work itself out and the administration of the islands will be of the true American sort, which will be a revelation to the people there."

"During our visit through the islands we were, of course, brought into close touch with the army, and Gen. Corbin spent his time in the inspection of it and the workings of the various departments. He was much pleased with the army as he saw it, and we all were convinced that there was nothing to be desired in the methods of the commander. Gen. Chaffee is surely the right man for the place, and his course is not as industrious as the Chinese or Japanese, but they work in the fields and make a good showing so far as they go. They will improve under the rule which is now being established, and I believe that the longer the islands are in our hands the better we will be pleased with the returns from them."

Only Too Real.

From the Catholic Standard and Times. "This is what I call real married life," said the young Benedict who was just realizing that he had caught a Tartar.

"I'm glad you're satisfied with something," he snapped.

"Oh! I'm not, merely meant to inform you that it is not ideal."
